☆ **Registration: the 'Войти' button is not changed to the 'Выйти' button after registration**

Environment #

Operating System: Windows 10 Pro Version 22H2

Browser: Opera One Version 112.0.5197.53

Steps to reproduce

- *Step 1*
Action: Open <https://qa.demoshopping.ru>
- *Step 2*
Action: Click the 'Регистрация / Войти' button
- *Step 3*
Action: Input 3 valid characters including a number and/or a Latin letter and/or the '_' symbol in the login field of the registration form
- *Step 4*
Action: Input 8 valid characters including numbers and Latin letters in the password field of the registration form
- *Step 5*
Action: Click the 'Зарегистрироваться' button

Expected result

The 'Регистрация / Войти' button is changed to the 'Выйти' button

Actual result

The 'Войти' button was not changed to the 'Выйти' button after registration.
The button that should have changed was incorrectly named ("Регистрация / Войти" instead of 'Войти' in the requirement); there is also another button with the name "Войти"
